

MPA-ENGAGE MAIN OUTPUTS

This document is intended to provide an easy access to the main outputs of the MPA Engage, an Interreg MED funded project, aiming to enhance the effectiveness of the Mediterranean Marine Protected Areas to face the climate change emergency.

01

Harmonized Monitoring →

- 1.1. Eleven Standard Monitoring Protocols Booklet
- 1.2. Joint Monitoring Plan
- 1.3. e-learning materials for each protocol

02

Vulnerability Assessment →

- 2.1. Vulnerability Assessment Guidelines
- 2.2. Joint Vulnerability Assessments Plans
- 2.3. Reports from the 7 pilot MPAs
- 2.4. e-learning materials
- 2.5. Vulnerability Assessment Tool for Mediterranean MPAs

03

Citizen Science →

- 3.1. Citizen Science Protocols
- 3.2. Joint Citizen Science Plan
- 3.3. The "BRO" Program
- 3.4. e-learning materials

04

Adaptation & Mitigation →

- 4.1. Guidelines to Develop Climate Change Adaptation & Mitigation Plan
- 4.2. Joint Plan for Climate Change Adaptation
- 4.3. Reports from the 7 pilot MPAs
- 4.4. e-learning materials

05

Participatory Approach →

- 5.1. Guidelines for Applying a Quintuple Helix Participatory Approach
- 5.2. Synthesis on Deploying the Quintuple Helix Participatory Approach
- 5.3. Reports from the 7 pilot MPAs

06

Communication →

- 6.1. MPA Engage Website
- 6.2. Social media channels
- 6.3. Boiling Mediterranean: Marine Protected Areas facing climate change - illustrated facts and ideas
- 6.4. Webinar Series
- 6.5. Cartoon on Climate Change
- 6.6. MED Together: 60-second videos to re-connect with the sea
- 6.7. Deliverables Database

Check the Operational Guide with the key elements for the development of MPAs adaptation actions plans to climate change.
